

## SELF DECLARATION

### **Durst Water Technology Food Ink (Durst WT Food SP and Durst WT Food MP Ink)**

It is herewith confirmed that Durst Water Technology Food Inks are manufactured in compliance with the below mentioned principles:

#### **Prohibition Of Forced Or Compulsory Labor**

Forced or compulsory labor, and any involvement therewith, is prohibited. Forced or compulsory Labor is defined as all work and services that are extracted from any person under the threat of penalty and for which the said person has not offered himself/herself. The most extreme examples are slave labor, prison labor, and bonded labor, but debts can also be used as a means of maintaining workers in a state of forced labor. Withholding identity papers, requiring compulsory deposits, or compelling workers, under threat of firing, to work extra hours to which they have not previously agreed, are all examples of forced labor.

#### **Prohibition Of Child Labor**

Child labor, and any involvement therewith, is prohibited. "Child Labor" shall be defined in accordance with the International Labour Organization Minimum Age Convention, 1973 (No. 138), or the local legal minimum age for labor, whichever is higher.

#### **Trade Restrictions**

From time to time, the U.S. government and the EU and its member states have economic embargoes against countries they consider to be "enemies of the state." These are typically countries that practice or support terrorism, violate human rights standards, or engage in other unacceptable acts. As a good corporate citizen, strict compliance with these embargoes is given.

With kind regards,

A handwritten signature in blue ink, appearing to read "S. Kappaun", is written over a horizontal line.

**Dr. Stefan Kappaun, MBA**

Executive Vice President Inks and Fluids
